ALLIED PRODUCTS

REACTIVE MOULD RELEASE (RMR)

RenderCrete RMR reacts with calcium in concrete, helps achieve excellent finish of concrete surface.

SPECIALIZED ADMIXTURES FOR PLASTERING

We are renowned as **RenderCon** in the builders and developers market. RenderCon is focused on manufacture of self-curing admixtures using Manufactured sand for plastering. Please refer to www.rendercon.com.

ABOUT RENDERCRETE

RenderCon, founded in 2016, has established a commendable reputation among builders in South and West India for its superior plastering admixtures that complement the use of manufactured sand. Our sister concern, RenderCrete, specializes in producing concrete admixtures and waterproofing solutions. Our manufacturing plant is situated in Hyderabad.

Our product development team possesses 20+ years of collective experience and expertise, garnered from their tenures in diverse multinational corporations, within avenues of the ready-mix-concrete, construction sites and construction chemical industries.

Our products are engineered to be technically sound, and we offer unparalleled on-site support, including assistance with mix designs and proportioning. Our priority is to provide every possible aid that can enhance the efficiency of our users.

Our admixture solutions are regarded as some of the best in the industry, effectively addressing run-time issues while remaining cost-effective. Additionally, our waterproofing solutions are comparable, if not superior, in performance to those of multinational corporations.

For our exclusive plastering admixtures please refer www.rendercon.com
